

REAR SIDE OF LOCK

**TO CHANGE THE CODE:** When in the open position. Move the switch from the “A” position to the “B” position and then change the code to whatever number you prefer. Then move the Switch back to the “A” position. **Your new code is now installed.**

**REMINDER:** Do not forget the new combination! Only you know that number and it can only be changed by you!

Visit YouTube for installation and lock change instructions. Search “StatGuardPlus XL”
